OBJECTIVE

Software Engineer and MERN stack developer, I am on the lookout for a fulfilling opportunity in the learning and development industry where I can make a meaningful impact.

EDUCATION

Bachelor in Computer Science and Engineering,

Indian Institute of Information Technology Kota   Expected 2024

Relevant Coursework: DBMS, Operating System(linux), Machine learning, and computer Networks.

SKILLS

Languages	C++, Java(basic),JavaScript, SQl,Html,CSS,PHP(basic)
Technical Skills	React.Js , Relational databases, Git, Github, bootstrap,
Problem solver	150+ question(GFG) , 140+ question (Leetcode)

EXPERIENCE

full Stack developer   Mar 2022 - May 2022

Acmegrade   *Remote*

- learned to build a fully functional E-commerce website from scratch using HTML, CSS, and JavaScript for client-side scripting.
- implement PHP for server-side scripting.
- utilized a relational database with SQL for data management.

PROJECTS

Portfolio Website. I designed and developed a sleek and dynamic portfolio website using ReactJS and Bootstrap. To enhance its functionality, I integrated various APIs such as Map API and Email API. (see it here)

Restaurant Website I have designed and developed a full-stack website using HTML, CSS, and vanilla JavaScript for the front-end, while utilizing PHP for the back-end. The website runs smoothly on the XAMPP server, and all data is stored in a relational database using SQL. (see it here)

News Application. I have integrated a News API into a web application, fetching news from various categories using ReactJS. In addition, I have crafted a responsive design with Bootstrap, ensuring that the website looks and functions seamlessly on any device(see it here)

EXTRA-CURRICULAR ACTIVITIES

- I am deeply committed to social welfare and environmental conservation efforts, and have taken an active role in these initiatives by participating in various programs and sessions.
- Conducted a session at a local government school where I organized engaging activities such as drawing competitions and quizzes to raise awareness about water conservation. Through these activities, I was able to effectively convey the importance of sustainable water usage and inspire the younger generation to take action.

LEADERSHIP

- I have demonstrated strong leadership skills through my role as a project team leader, where I effectively managed the pipeline of tasks and assigned responsibilities to team members based on their strengths and capabilities. By leveraging the diverse skills of each team member, I was able to successfully complete the project on time and within budget, while maintaining high quality standards.
